

Edge Guards

Sustainable Protective Packaging Solutions
for Your Unique Shipping Needs

Our unique ribbed design dampens vibrations and absorbs impacts while staying lightweight, durable, and economical.

Why choose HC products?

- Decreases your carbon footprint and lowers overall shipping costs
- Is static-free, denests easily, and stacks optimally to reduce necessary warehouse space
- Produced in a closed-loop water recycling facility, thereby eliminating wastewater discharge and lowering energy use
- Can be conveniently recycled in municipal recycling programs
- Fiber material organically breaks down quickly and harmlessly, unlike EPS which releases toxic chemicals into the atmosphere and never fully breaks down
- Manufactured using 100% certified recycled material
- No compromises in overall strength and performance

Product Part Code	Product Description	Case Quantity
FXE30330	30" Edge Guard 3" Sides	100
